

# Easy Rider Small

## Tricycle

The Easy Rider Small is a tricycle that is specially designed for children from about 4 years old, and smaller adults. The bike offers a lot of stability due to its low centre of gravity and has a low step-through.

The seat with an adjustable backrest, and the suspension in the frame provide ultimate comfort while cycling. The Easy Rider Small has a sporty and modern look.

Due to the unique frame, you make a forward pedalling motion while cycling which allows you to apply more force with your legs. A cool bike that is suitable for both long and short bike rides.

## Benefits

- ✓ Comfortable adjustable seat with backrest
- ✓ Suspended frame for optimal comfort
- ✓ Small turning radius
- ✓ Fits through a regular door opening
- ✓ Low seating position with a low centre of gravity for increased stability

## Popular options/accessories

- Pedal assist (smart e-bike)
- Pedal adjustment, such as foot fixation or a balanced pedal
- A mirror for extra safety
- 8-gear hub with freewheel or backpedal braking
- A basket to bring along your necessities

”

*Our son with balance issues is incredibly happy and proud of this tricycle.*
